

Tier	Label	Data Sensitivity	Operational Criticality
1	Critical	Processes PII, PCI, or PHI data at scale	Outage causes direct revenue loss or customer harm
2	High	Limited PII access or non-core data processing	Outage degrades service but workarounds exist
3	Low	No data access or anonymised/aggregated data only	Outage has minimal customer-facing impact

Tiering Decision Tree

Q1: Does the vendor access, store, or process customer PII or payment

YES -> Tier 1

NO -> Go to Q2

Q2: Would a vendor outage or breach directly impact StubHub's ability

YES -> Tier 2

NO -> Go to Q3

Q3: Does the vendor have any network access to StubHub systems or data

YES -> Tier 2

NO -> Tier 3

Assessment Frequency	Questionnaire Depth
Annual + event-triggered	Full (60+ questions)
Annual	Standard (30 questions)
Every 2 years	Lightweight (15 questions)

data?

to sell or deliver tickets?

, even indirectly?

Vendor Name	Vendor Category	Assigned Tier	Assessment Status	Last Assessment Date
PaymentCo	Payment	1	Complete	2026-03-10
CloudHosting Ltd	Cloud	1	Complete	2025-09-01
MarketingAnalytics Inc	Analytics	2	Complete	2025-11-15
EmailDelivery Co	Communications	2	In Progress	2025-06-01
HR Platform SaaS	HR/Staffing	2	Complete	2026-01-20
LegalDocs Tool	Document Management	3	Complete	2025-05-12
Office Supplies Portal	Procurement	3	Not Started	
FraudDetection API	Security Services	1	Overdue	2025-06-30
CDN Provider	Infrastructure	2	Complete	2025-07-05
Data Backup Vendor	Backup/Recovery	1	Complete	2026-02-01

Next Assessment Due	Vendor Security Score	Risk Rating
2027-03-10	46	Critical
2026-09-01	91	Low
2026-11-15	78	Medium
2026-07-20		
2027-01-20	64	High
2027-05-12	88	Low
2026-08-01		
2026-06-30		
2026-07-05	82	Medium
2026-05-01	41	Critical

Key Findings	Remediation Required	Remediation Owner
No MFA enforced on admin accounts handling cardholder data; breach notification SLA not contractually confirmed	Yes	Security Engineering
No material findings; strong DR/redundancy posture across regions	No	
Data classification policy exists but not consistently applied to shared datasets	No	
Assessment in progress; awaiting questionnaire response	No	
Encryption at rest not confirmed for stored employee and candidate PII	Yes	Procurement / Vendor Mgmt
No material findings	No	
Not yet assessed this cycle	No	
Assessment overdue by 5 days; escalation notice sent	No	GRC Analyst
Patch management SLA documented but not independently verified	No	
Business continuity test not performed in over 24 months; incident response plan not tested	Yes	VP Engineering

Remediation Due Date	Notes
2026-07-23	Tier 1 PCI-relevant processor; CISO briefed on remediation plan
	Primary IaaS provider; multi-region failover confirmed
	Limited PII access; aggregated reporting only
	Tier 2 due to CRM-linked customer email list access
2026-09-01	Monthly check-in scheduled per High risk band
	Low-tier document repository; anonymised templates only
	No network access to StubHub systems
2026-08-01	Real-time transaction risk scoring; Tier 1 due to payment-adjacent data access
	Edge caching layer; no direct PII access
2026-07-15	Critical due to full customer database backup access; re-assessment scheduled within 90 days of remediation
